Production

Excellent production facilities support the manufacture of high quality products.

The production of foundation frames and brackets is highly standardized.

DEMP PLANTS ARE PRODUCED TO MEET THE HIGHEST QUALITY STANDARDS, BASED ON THE KNOW-HOW AND EXPERIENCE GAINED THROUGH MORE THAN 20 YEARS.

THE HIGHLY REPUTABLE SUB-SUPPLIERS HAVE MANY YEARS OF EXPERIENCE MEETING TOUGH DEMP QUALITY STANDARDS.

DEMP A/S

SINCE ITS FOUNDING IN 1977, DEMP HAS DELIVERED MORE THAN 3,500 DIESEL MARINE GENERATING AND PROPULSION PLANTS TO LEADING SHIPYARDS THROUGHOUT THE WORLD.

APPROXIMATELY 300 PLANTS ARE PRODUCED ANNUALLY. MOST ARE EXPORTED.

THE HEADQUARTERS IS CONVENIENTLY LOCATED IN COPENHAGEN, NOT FAR FROM THE INTERNATIONAL AIRPORT AND THE MAIN RAILWAY STATION.

PRODUCTION WAS IN 1999 MOVED TO A NEW LOCATION IN RØNNEDE, 60 KM SOUTH OF COPENHAGEN.

THE COMPANY'S DIESEL GENERATING PLANTS ARE BASED ON MAN HIGH-SPEED DIESEL ENGINES, MANUFACTURED AT THE MAN NUREMBERG FACTORY.

DEMP MAINTAINS A NETWORK OF EXCLUSIVE SALES AGENTS IN MAJOR SHIPBUILDING NATIONS AND ALSO WORKS IN CLOSE COOPERATION WITH MANY INTERNATIONAL MAN OFFICES.

DEMP IS THE DANISH IMPORTER OF MAN HIGH-SPEED DIESEL MARINE ENGINES.

THE COMPANY IS A SUBSIDIARY OF THE GRØNBECH GROUP - WHOSE INTERESTS ALSO INCLUDE TRADE, BUILDING AND HIGHWAY CONSTRUCTION. DEMP HAS THE NATURAL FLEXIBILITY OF A SMALL COMPANY, BACKED BY THE STRENGTH OF A SUBSTANTIAL BUSINESS ORGANIZATION.

- Copenhagen, Headquarters
- Rønne, Factory

Design

DEMP employees are specialized in the design and production of marine generating plants.

The factory in Rønne has provided the possibility of further expansion.

THE LATEST TECHNOLOGY IS USED FOR EFFICIENT COMPANY ADMINISTRATION AND COMMUNICATIONS, JUST AS IT IS USED IN THE DESIGN OF EQUIPMENT.

ALL EMPLOYEES ARE LINKED IN DEMP'S OWN NETWORK, HAVING IMMEDIATE ACCESS TO INFORMATION ABOUT QUOTATIONS, ORDERS, CUSTOMERS, SPARE PARTS, ETC.

DOCUMENTATION CAN BE EASILY FORWARDED BY E-MAIL DURING THE DESIGN PHASE.

FINAL DOCUMENTATION CAN BE DELIVERED ON CD-ROM.

CAD systems are the basis for the design and documentation of the generating plants.
